### **About Caladrius Biosciences**

Caladrius Biosciences, Inc. is a clinical-stage biopharmaceutical company dedicated to the development of cellular therapies designed to reverse disease. We are developing first-in-class cell therapy products based on the finely tuned mechanisms for self-repair that exist in the human body. Our technology leverages and enables these mechanisms in the form of specific cells, using formulations and modes of delivery unique to each medical indication.

The Company's current product candidates include: XOWNA<sup>®</sup> (CLBS16), the subject of both a recently completed positive Phase 2a study and a newly initiated Phase 2b study ([www.freedom-trial.com](http://www.freedom-trial.com)) in the U.S. for the treatment of coronary microvascular dysfunction ("CMD"); CLBS12 (HONEDRA<sup>®</sup> in Japan), recipient of orphan designation for Buerger's Disease in the U.S. and, in Japan, recipient of a SAKIGAKE designation and eligible for early conditional approval for the treatment of critical limb ischemia ("CLI") and Buerger's Disease based on the results of an ongoing clinical trial; and CLBS201, designed to assess the safety and efficacy of CD34+ cell therapy as a treatment for diabetic kidney disease ("DKD"). For more information on the Company, please visit [www.caladrius.com](http://www.caladrius.com).
